

I recommend this. I watched the interview Tuesday evening and I was moved by the sincerity, the words, and the delivery by Brother Steve. Watch it on-line if you can or wait for the DVD.

Blessings,

Geo

Subject: Conversation with President Veazey re: Counsel to the Church

To: World Church Ministers in Canada and the United States, Mission Center staff in Australia and the British Isles, and International Headquarters staff

President Steve Veazey shared testimony during a videotaped conversation about the counsel to the church shared on January 17. With authenticity and vulnerability, he talked unscripted about the joys and burdens of the revelatory process.

People who have watched it in congregations and mission center gatherings—regardless of their position on specific matters addressed in the counsel—have shared that it was a powerful experience. It affirmed for them that God is with us as we journey into the future.

Presiding Evangelist David Brock said President Veazey's "love for the church and desire to be faithful to the pastoral and prophetic role which is his, are expressed so clearly. His invitation for all to continue the journey of discernment is compelling."

Pastors and mission center officers in Australia, the British Isles, Canada, and the United States will receive a DVD of the interview. Get a group or class together to share the experience. Read or watch it online at <http://www.cofchrist.org/wc2010/counsel/default.asp#video>.

Thank you for your prayerful support of Brother Veazey and the worldwide church as we continue our journey with God into the future.
